Re: KPXQ (AM), Glendale, Arizona  
Facility Identification Number: 55912  
Common Ground Broadcasting, Inc.  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed July 17, 2008, on behalf of Common Ground Broadcasting, Inc. ("CGB"), for further extension of the special temporary authority ("STA") granted on September 2, 2005, and modified on February 14, 2007, to operate Station KPXQ with parameters at variance and/or reduced power while maintaining monitor points within licensed limits.<sup>1</sup> In support of the request, CGB states repairs have been completed and that it is waiting for Commission approval of its application for direct measurement of operating power.

Our review indicates that Application BZ-20080319AEB was granted on November 12, 2008. Thus, STA is no longer necessary.

Accordingly, the request for extension of STA IS HEREBY DISMISSED.

Sincerely,

Charles N. Miller, Engineer  
Audio Division  
Media Bureau

cc: Common Ground Broadcasting, Inc.

---

<sup>1</sup> KPXQ is licensed for operation on 1360 kHz with 50 kilowatts daytime and 1 kilowatt nighttime, employing a directional antenna during nighttime hours only (DA-N-U).
